*1 4.5H is the approximate time of continuous recording in 50i if the internal battery has been fully charged, when the LED light is off, the monitor backlight is set to standard mode, and without the use of zoom function.
*2 When used with a portable battery of over 1.0A, 5V and over 1000mAh. Compatibility is not guaranteed for all portable batteries.

Provided Accessories

- AC Power Adapter and Cable
- AV Cable
- USB Cable

Precautions for Quad Proof Function

- Malfunction due to misuse by the customer is not covered by warranty.
- Before use in water, be sure to read the "Detailed User Guide" in the built-in memory of the camcorder.
- Close the connector cover firmly until it clicks and confirm that the red sign completely goes off.
- Make sure that there is no damage to and no foreign material adhered to the packing inside the cover.
- Use the camcorder in marine water and fresh water not deeper than 5m and for not more than 30 minutes.
- The waterproof cannot be guaranteed if the camcorder is subject to impact such as dropping.
- Do not apply impact in water.
- Do not soak the camcorder in hot springs or water of 40°C or higher.
- Dustproof function is not meant to encourage use on sand. Avoid use in conditions where sand and/ or dust particles can become lodged in moving parts such as the LCD monitor hinge and zoom lever.
- Temperatures between 0°C and -10°C temporarily lower battery performance, reducing the time available for recording.
- Quad Proof is not a guarantee of protection against damage and malfunction.

QUAD PROOF

Everio

The power to keep going, whether it's raining or snowing.

The combination of JVC's Quad-Proof Design and Long-Life Battery provide protection against bad weather and bad luck. Now you can keep recording excellent footage in environments that are far from ideal.

5m Waterproof
Whether you drop it into water or dive with it, IPX8 certified waterproofing keeps Everio running.

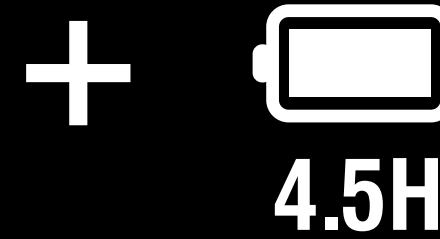

Dustproof
IP5X certified dustproofing lets you use Everio in some seriously dusty environments without worry.

1.5m Shockproof
Accidental droppage can destroy an ordinary camcorder, but Everio is built tough to take it in stride.

-10°C Freezeproof
Take Everio out in the snow or on the slopes – even if you're freezing, Everio will keep working.

4.5H* Internal Long-Life Battery
Shoot entire events, with no risk of damage by changing the battery in bad weather.

Compatible with Portable Battery and USB Charging**
Additional power wherever you are.

*1 4.5H is the approximate time of continuous recording in 50i if the internal battery has been fully charged, when the LED light is off, the monitor backlight is set to standard mode, and without the use of zoom function.
*2 When used with a portable battery of over 1.0A, 5V and over 1000mAh. Compatibility is not guaranteed for all portable batteries.

Powerful Imaging Performance

Full HD 1920x1080 Recording
Record, watch and share high quality video in native Full HD resolution.

Super LoLux
2.5M Back-illuminated CMOS Image Sensor helps indoor and night scenes look brilliant.

Without Super LoLux

With Super LoLux

Image Stabilisation
Count on steady, less jittery images with effective compensation for camera shake.

Without Stabilisation

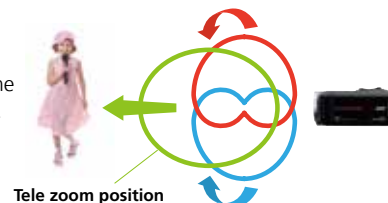

With Stabilisation

Powerful Zoom and Sound

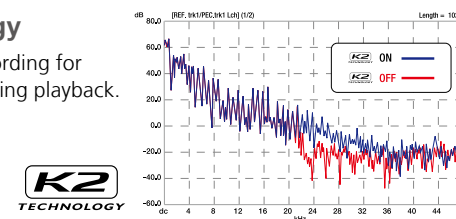

40x Optical and 60x Dynamic Zoom
Zoom to 40x magnification with full optical quality, then beyond to 60x without sacrificing resolution.

Zoom Microphone
Sound zooms along with the picture for a perfect match.

K2 Technology
Applied during recording for superior fidelity during playback.

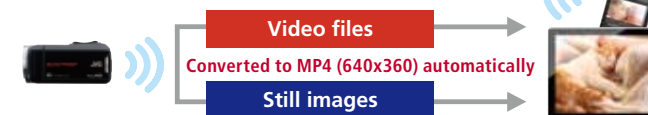

Auto Wind Cut
Original technology reduces wind noises picked up at the microphone, so gusts of wind won't spoil your soundtrack.

Powerful Creative Capabilities

Wi-Fi Functions*
• Live Monitoring and Remote Recording

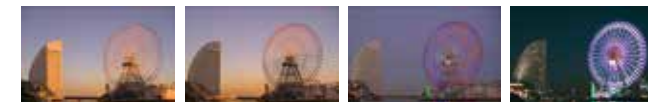

• Wireless Data Transfer to Smartphone/Tablet

* Applicable models only. Free app available for Android and iOS.

Time-Lapse REC
Records one frame at a time at set intervals for a fast-motion view.

Everio MediaBrowser 4 Software
Windows PC software supplied for easy import, management and editing of your videos. Provided in the built-in memory of the camera.

Works with iMovie and Final Cut Pro X
Edit your video afterwards just like the pros do.
